

Service is not about making promises or grand statements it is all about keeping the promise.

Manufacturer & Suppliers of :

- Scaffolding Multi Drilling Machine
- Gang/Multi Drill Machine
- Hydraulic Press
- Copy Turning Attachment
- Auto Copying Lathe
- Broaching Machine
- Special Deep Drill Machine
- SPM Machine

Scaffolding Multi Drilling Machine

Company Profile

Established in the year 1982, we “**B S Engineering Works, Ludhiana**” are a prominent manufacturer and supplier of special purpose machines. These machines are designed and developed to meet the exact demands of our clients. With sophisticated facilities and extensive market research, we are also able to design these using latest modular concepts.

Innovation and improvisation being our forte, we have been able to offer the special purpose machines at par with the industry demands. The continuous research we conduct further allows us to manufacture the range as per the latest market trends. We also pay attention towards the individual requirements and offer customized solution as per the specific requirements of clients.

The soaring heights we have attained throughout these years is due to the able guidance of our mentor, **Mr. Kehar Singh**. His in-depth experience and ethical business practices enable us to aim for continuous success in the Market.

Quality

We have been able to create a niche in the domain of manufacturing special purpose machines due to our total quality management policy. Quality is maintained through stringent testing at each level of production. Our strict attention towards quality started right from the raw material procurement and continues till the delivery of the consignments. The inspection team at our premises is well aware of industrial norms & regulations, and thereby, allows us to maintain the same in our production and post production stages.

Special purpose machines we manufacture are tested on the following well defined parameters:

- ⇒ Design
- ⇒ Performance
- ⇒ Accuracy
- ⇒ Efficiency

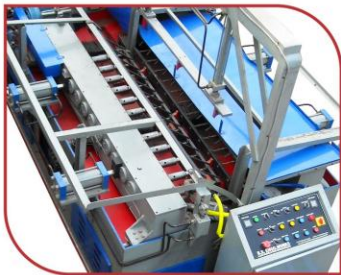

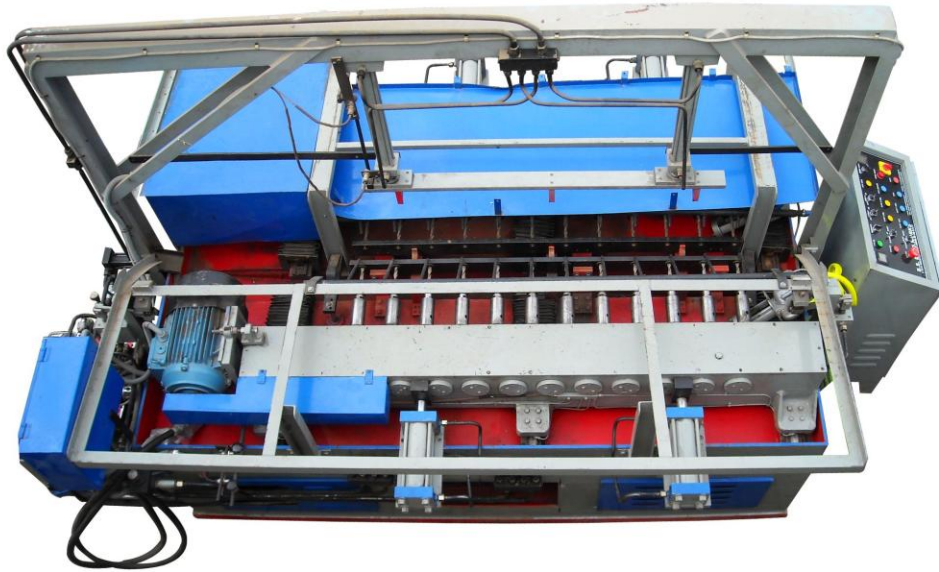

In addition to this, we also check these on durable finish, corrosion resistance, turnover ratio, specifications, dimensions, weight, and measurements. This allows us to assure our clients regarding the quality of the range.

Why Us?

We have been able to create a position of repute for ourselves in the domain of special purpose machines through our quality range and client centric approaches.

- ✓ The basic factors that have brought us fame in the domain include:
- ✓ Highly productive and cost-effective machines
- ✓ Good infrastructure and a dedicated team to back operations
- ✓ Sophisticated R&D lab
- ✓ Well knitted distribution network
- ✓ Experienced and dedicated professionals
- ✓ Installation training
- ✓ Good financial position & TQM
- ✓ Large product line
- ✓ Large production capacity

Scaffolding Pipe Drilling Machine

Description

Multi Drilling Machine is very useful in scaffolding Industry as well as in Fastener. With the help of this Machine one can make multiple drills at a time which helps to boost production with maintaining quality and saves the labour cost.

In scaffolding industry, these machines are very useful to improve the quality and Production. These machines are provided in various fixed PCD, and adjustable PCD, depending upon the requirement of the Customer. These machines are provided with rapid then controlled hydraulic feed, with fully and semi-auto function. Hydraulic Power pack is driven by 3 H.P. & Drills are driven by 5 to 10 H.P. (depending upon Customer's Requirement).

These machines are manufactured with high grade steel to improve the accuracy and durability.
